TWO BRIDGES REPAIRED.

Farmers South of Maryville Are Busy Fixing Damaged Crossings.

Eldon Wolf and G. H. Hunter and sons, have just finished a bridge near their farms, five miles southwest of Maryville and south of the Bell Grove school. The bridge had been rendered dangerous by the recent rains and the water had washed out the south end of the bridge.

Three big posts were placed underneath the bridge and a retaining wall of 2-inch lumber was built against these posts. The filling-in is being completed today. A small bridge south of the bridge just finished, has also been repaired by the farmers of the vicinity.

UNKNOWN MAN BURIED

No Response From Relatives of Joseph Williams, Whom the Dead Man Is Thought to Be.

The body of the unknown man, thought to be Joseph Williams of St. Joseph, who was killed by a passenger train on the Great Western tracks, one and three-fourths miles north of Guilford early yesterday morning, was buried late yesterday afternoon after all attempts to get in communication with his relatives had failed. Interment was made in Graves cemetery, east of Guilford.

The search for the man's relatives is still being made and will be continued until the authorities at Guilford are satisfied that the man is not Joseph Williams. At the coroner's inquest yesterday, William Cook of Guilford said that he had met the man before the accident and that he had told him that he was Joseph Williams, that he lived at Hyde Park, St. Joseph, and that he was looking for work on a farm. He also mentioned a brother at Helena, Mo. The relatives had not been heard from up to a late hour this afternoon.

More than forty workers in the Red Cross "drive" which will be held next Monday and Tuesday of next week, met at the Court House last night and received instructions regarding the method of handling the work. At the time of the meeting not all of the ward captains lists had been completed. This was accomplished about noon today and everything is in line for the big "drive" next week.

Dr. F. R. Anthony, local chairman, and Fred P. Robinson, secretary for the township wish to impress upon the people the necessity of deciding the amount they are to give before the workers arrive so that no delay will be caused. The persons who have volunteered for the work have given their time to the work and an effort will be made to complete the "drive" in two days. If this is done, it will mean prompt response from every home in Polk township. Try to get the members of the family together and decide what you intend to do. Then have the money ready.

It is also urged that every member of the family take out a membership in the organization. This will mean a great showing for Nodaway county and will also create a more general interest in the work that must be done until the war is over.

"Never before have men and women had such an opportunity to transport their fortunes to Heaven during the period of their lifetime."

—From the speech of Festus J. Wade before advertising at St. Louis, June 4, 1917.

*Represents the Heart of the
American People*

THE RED CROSS is the God of mercy in a world gone mad. It cares for the sick and wounded of the army and navy. It provides for soldiers' and sailors' families.

THIS SAME RED CROSS will look after our boys of the 4th Regiment when they are fighting our battles in the trenches of Europe. We must not fail to protect our own boys.

WHEN the battle is over its work begins. It ministers to the suffering. It takes the last message of the dying. Its sole purpose is to comfort, serve and save.

EVERY mother—every sister every wife should become members of this organization, whose only enemy is human pain.

Facts About The Red Cross

The American Red Cross is intended to aid in prevention and alleviation of human suffering in times of peace and war.

Aid after great disasters, like storm, flood, fire mine disaster, pestilence, and the like, is the established need of the American Red Cross.

A function of the organization is the promotion of first-aid instruction among mining companies, railroads industrial establishments, and the public at large.

Another function is Nursing Service with the best corps of trained nurses in existence.

The Red Cross is required by law to make annual report to the Secretary of War. This is transmitted to Congress and printed. Accounts must be audited by the war department. Thus funds are safe-guarded.

There is a record of more than 80 great relief operations since 1905. It has received and expended over 10 millions in cash; and relief supplies of more than five millions.

The American National Red Cross is the only society of a voluntary nature authorized by the government to render aid to land and naval forces in time of war. Its peace record is most conspicuous.

A Chapter is a permanent local organization which represents all the local activities and agencies of the Red Cross. You should join the Nodaway County Chapter.

**Join The Servants of Mercy—
—The American Red Cross.**

NODAWAY COUNTY MUST SUBSCRIBE \$30,000—That is our quota of the fund to be subscribed by the people of this county for the American Red Cross. This is no charity, for to take our place in the ranks of the Red Cross is merely to do our rightful part to help win this war, and "make the world safe for democracy." *President Wilson's Flag Day Address*

It provides for care of the sick and wounded at the war base.

It provides employment for returned disabled men and under government direction, goes where many of us cannot go in the hour of danger.

Red Cross subscribers are not expected to go to the war front; nor do they assume any financial obligations other than the payment of their subscription.

But the aggregate of these subscriptions, paid by millions of grateful men, women and children all over the land, will make possible the beneficent work of relief upon which the soldier, sailor and his family depend.

This is not charity. To take our place in the ranks of the Red Cross is merely to do our rightful part in helping to win this war.

TWO BRIDGES REPAIRED.

Farmers South of Maryville Are Busy Fixing Damaged Crossings.

Eldon Wolf and G. H. Hunter and sons, have just finished a bridge near their farms, five miles southwest of Maryville and south of the Bell Grove school. The bridge had been rendered dangerous by the recent rains and the water had washed out the south end of the bridge.

Three big posts were placed underneath the bridge and a retaining wall of 2-inch lumber was built against these posts. The filling-in is being completed today. A small bridge south of the bridge just finished, has also been repaired by the farmers of the vicinity.

Sanford Leach of near Pickering was a Maryville visitor yesterday.

96 DEGREES TODAY

LAST DAY OF MONTH BREAKS THE TEMPERATURE RECORD.

JUNE'S RAINFALL 13.54

Total Precipitation for the Month Was 8.53 Inches More Than Normal—Other Interesting Comparisons.

Today is the hottest day in the month of June, the thermometer registering 96 degrees. The second hottest day of June was June 11, when the thermometer registered 93 degrees. June has been the wettest June in years, 13.54 inches of rain having fallen. The report by Mr. Brink follows:

The total rainfall for the month of June, according to the records compiled by Weather Observer, J. R. Brink was 13.54 inches. This, Mr. Brink says, is 8.53 inches more than the normal precipitation for June which should be 5.01.

The highest precipitation for any June since the records have been kept in Maryville was in 1909 when the rainfall was 9.76. Consequently, this month greatly exceeds even the maximum of precipitation for any month since the records were taken.

The least precipitation ever recorded for June was 1.16 inches.

The departure from the normal in temperature for the month of June was 3.3 degrees lower. The mean temperature for this month was 67.6 degrees. The normal mean temperature for the month of June is 70.9 degrees. The highest mean temperature for any June was 77.6 degrees in June 1911. The lowest mean temperature of any June was in June 1903, when it was 66.2.

The highest temperature recorded for this month is that of today. The thermometer registers 96. The lowest recorded for the month was 42 degrees for June 15 and 16.

The highest temperature recorded in June was 101 degrees, this temperature being reached on June 26, 1901. The lowest temperature ever recorded was 42 degrees. This temperature was reached June 21, 1902.

MISS VAUGHN TO GUILFORD

Columbia Extension Lecturer Will Hold Delayed Canning Demonstration There Tuesday.

The canning demonstration that was to have been given last Thursday at the Whiteford school, near Guilford, will be given at 2 o'clock Tuesday afternoon at Hocker hall in Guilford. Miss Georgia Vaughn, of the Extension Department of the University of Missouri is now in the county working and is sure to be on hand.

A confusion in routing was the cause of Miss Vaughn's failure to keep her appointment in Guilford last Thursday, and she will surely be at the meeting Tuesday. Every woman in the township is urged to come and bring fruit that she would like to have canned.

UNKNOWN MAN BURIED

No Response From Relatives of Joseph Williams, Whom the Dead Man Is Thought to Be.

The body of the unknown man, thought to be Joseph Williams of St. Joseph, who was killed by a passenger train on the Great Western tracks, one and three-fourths miles north of Guilford early yesterday morning, was buried late yesterday afternoon after all attempts to get in communication with his relatives had failed. Interment was made in Graves cemetery, east of Guilford.

The search for the man's relatives is still being made and will be continued until the authorities at Guilford are satisfied that the man is not Joseph Williams. At the coroner's inquest yesterday, William Cook of Guilford said that he had met the man before the accident and that he had told him that he was Joseph Williams, that he lived at Hyde Park, St. Joseph, and that he was looking for work on a farm. He also mentioned a brother at Helena, Mo. The relatives had not been heard from up to a late hour this afternoon.

More than forty workers in the Red Cross "drive" which will be held next Monday and Tuesday of next week, met at the Court House last night and received instructions regarding the method of handling the work. At the time of the meeting not all of the ward captains lists had been completed. This was accomplished about noon today and everything is in line for the big "drive" next week.

Dr. F. R. Anthony, local chairman, and Fred P. Robinson, secretary for the township wish to impress upon the people the necessity of deciding the amount they are to give before the workers arrive so that no delay will be caused. The persons who have volunteered for the work have given their time to the work and an effort will be made to complete the "drive" in two days. If this is done, it will mean prompt response from every home in Polk township. Try to get the members of the family together and decide what you intend to do. Then have the money ready.

It is also urged that every member of the family take out a membership in the organization. This will mean a great showing for Nodaway county and will also create a more general interest in the work that must be done until the war is over.

The county work is still progressing. Pickering organized last night for the campaign under the direction

Red Cross

Represents the Heart of the
American People

THE RED CROSS is the God
of mercy in a world gone
war mad. It cares for the sick
and wounded of the army and
navy. It provides for soldiers'
and sailors' families.

THIS SAME RED CROSS will
look after our boys of the
4th Regiment when they are
fighting our battles in the
trenches of Europe. We must
not fail to protect our own boys

WHEN the battle is over its
work begins. It ministers
to the suffering. It takes the
last message of the dying. Its
sole purpose is to comfort,
serve and save.

EVERY mother—every sister
every wife should become
members of this organization,
whose only enemy is human
pain.

Facts About The Red Cross

The American Red Cross is intended to aid in pre-
vention and alleviation of human suffering in times
of peace and war.

Aid after great disasters, like storm, flood, fire
mine disaster, pestilence, and the like, is the estab-
lished need of the American Red Cross.

A function of the organization is the promotion of
first-aid instruction among mining companies, railroads
industrial establishments, and the public at large.

Another function is Nursing Service with the best
corps of trained nurses in existence.

The Red Cross is required by law to make annual
report to the Secretary of War. This is transmitted
to Congress and printed. Accounts must be audited
by the war department. Thus funds are safe-guarded.

There is a record of more than 80 great relief op-
erations since 1905. It has received and expended
over 10 millions in cash; and relief supplies of more
than five millions.

The American National Red Cross is the only so-
ciety of a voluntary nature authorized by the govern-
ment to render aid to land and naval forces in time of
war. Its peace record is most conspicuous.

A Chapter is a permanent local organization which
represents all the local activities and agencies of the
Red Cross. You should join the Nodaway County
Chapter.

NODAWAY COUNTY MUST SUBSCRIBE
\$30,000—That is our quota of the fund to be subscrib-
ed by the people of this county for the American Red
Cross. This is no charity, for to take our place in the
ranks of the Red Cross is merely to do our rightful
part to help win this war, and "make the world safe
for democracy." President Wilson's Flag Day Address

It provides for care of the sick and wounded at the
war base.

It provides employment for returned disabled men
and under government direction, goes where many of
us cannot go in the hour of danger.

Red Cross subscribers are not expected to go to
the war front; nor do they assume any financial obli-
gations other than the payment of their subscription.

But the aggregate of these subscriptions, paid by
millions of grateful men, women and children all over
the land, will make possible the beneficent work of
relief upon which the soldier, sailor and his family
depend.

This is not charity. To take our place in the ranks
of the Red Cross is merely to do our rightful part in
helping to win this war.
